Dear Ed, In your 2/1/73 you understate. Garrison no hails Cyril as one of the few great. Others are Lane, Dahl and Salandria. The Modern Medicine bit is worse than you say, and I guess we have not yet seen him bottoming. If you haven't seen the Village Voice JG interview you have missedsomething! I guess the same occupational insanity has hit almost everyone by now. Understand Lane and Freed have a dell novel due in April. Any info on it and the coming novel guised as non-fiction, ghosted for one calling himself Jose Luis Romero, would be welcome. Romero says CIA paid him to off JFK but he chickened, 5/61, in France. Romero OAS. Does you library have back issues of LMP (Literary Marketplace)? Nothing new yere, certainly nothing good. Best regards, HW 2/8/73
